

TALL TUBULAR INVERTER BATTERY

**BUILT FOR LONG BACKUP
DESIGNED FOR
TOUGH CONDITIONS**

**UNLEASH THE POWER OF
KING KONG**

Tall Tubular Battery

Engineered with advanced German Technology, the **KING KONG** Tall Tubular Battery delivers superior backup, long life, and dependable performance even in extreme heat and heavy power-cut conditions. Built for homes, offices, shops, and commercial installations where uninterrupted power is essential.

- ✓ **EXTRA-LONG BACKUP**
- ✓ **HEAVY-DUTY TUBULAR PLATES**
- ✓ **LOW MAINTENANCE DESIGN**
- ✓ **IDEAL FOR INVERTER & SOLAR SYSTEMS**
- ✓ **STRONG PERFORMANCE IN HIGH TEMPERATURE REGIONS**

UNSTOPPABLE POWER. RELIABLE BACKUP. TRUE PERFORMANCE.

WHEN POWER FAILS, WE DON'T.

ADVANCED FEATURES

- **High-Density Tubular Positive Plates**

Specially engineered tubular structure ensures longer service life and excellent deep-cycle performance.

- **Superior Active Material Formula**

Improves charge acceptance and provides consistent backup over years of use.

- **Heavy-Duty Spine Alloy Construction**

Reduces corrosion and enhances durability for long operational life.

- **Optimized Electrolyte Volume Design**

Helps maintain stable performance and reduces need for frequent water topping.

- **High Temperature Resistance**

Built to perform reliably in hot climate regions across Middle East, Africa, and Asia.

PERFECT FOR

- Homes & Apartments
- Shops & Retail Stores
- Offices & Clinics
- Schools & Institutions
- Rural & Semi-Urban Installations
- Solar Backup Systems

KEY BENEFITS

- ✓ Longer battery life compared to flat-plate batteries
- ✓ Stable backup during long power cuts
- ✓ Reduced maintenance requirements
- ✓ Reliable performance for inverter & solar applications
- ✓ Lower cost per backup cycle over battery lifetime

WHY CHOOSE KING KONG?

- ✓ Designed for frequent power-cut areas
- ✓ Excellent deep-discharge recovery
- ✓ Faster recharge efficiency
- ✓ Rugged internal structure for longer lifespan
- ✓ Trusted solution for residential & commercial power backup

PRODUCT SPECIFICATIONS

KING KONG - INVERTER BATTERY

DEEP CYCLE INVERTER BATTERY @ C20

Part Number	Capacity (AH)	Packed weight (Kg.)	On 1st Cycle	On 3rd Cycle	Pc per pallet
KK-INV-200	200	62	3:55	4:10	20
KK-INV-220	220	64	4:15	4:20	20
KK-INV-240	240	66	4:40	4:45	20
KK-INV-260	260	68	5:00	5:10	20

WARRANTY SUPPORT

Built with strict quality standards and backed by dependable service support for long-term reliability.

KING KONG POWER SYSTEMS

Strong Power. Strong Performance. Strong Trust.
