SOLAR TALL TUBULAR BATTERY

**BUILT FOR
EXTREME PERFORMANCE**

**UNLEASH THE POWER OF
KING KONG**

High-Performance Solar Tall Tubular Battery

Engineered with Advanced German Technology for superior backup, longer life, and reliable solar performance — even in harsh climates.

- ✓ **EXTRA-LONG BACKUP**
- ✓ **HEAVY DUTY TUBULAR PLATES**
- ✓ **DESIGNED FOR SOLAR & INVERTER SYSTEMS**
- ✓ **LOW MAINTENANCE & RUGGED BUILD**
- ✓ **IDEAL FOR HOMES, OFFICES & COMMERCIAL USE**

**WHEN POWER MATTERS, TRUST KING KONG
THE POWER THAT NEVER BACKS DOWN**

ADVANCED FEATURES

- **German Technology Tubular Design**

Special high-density tubular plates ensure stronger structure, deep-cycle durability, and consistent power delivery.

- **Extra Deep-Cycle Performance**

Designed to handle frequent power cuts and long discharge cycles — perfect for solar applications.

- **Long Service Life**

Optimized alloy composition reduces corrosion and increases battery lifespan.

- **Fast Charging Capability**

Improved charge acceptance reduces downtime and ensures quicker readiness.

- **Low Water Loss Technology**

Special vent design minimizes water topping frequency and maintenance effort.

- **Heavy-Duty Container & Strong Terminals**

Shock-resistant outer body with anti-corrosion terminals for tough environments.

KEY BENEFITS

Longer backup during outages

Stable power for sensitive appliances

Trusted durability for daily heavy usage

Lower lifetime cost per cycle

Reliable performance in high-temperature regions

IDEAL FOR

- Solar Home Systems
- Inverter Backup Systems
- Villas & Residential Buildings
- Shops & Offices
- Schools & Hospitals
- Telecom Backup
- Rural Electrification Projects

THE POWER THAT NEVER BACKS DOWN

WHY CHOOSE KING KONG?

Strong Like Its Name

Reliable Like German Engineering

KING KONG Solar Tall Tubular Batteries are manufactured using advanced production technology and strict quality control to deliver dependable power for years.

PRODUCT SPECIFICATIONS

KING KONG - SOLAR TALL TUBULAR BATTERY

Part Number	Battery Capacity @ C 10 (AH)	Life Cycle @80% DOD	Tube Inner Dia.	Packed Battery Wt. (kg)	Backup @400-watt Hr: Min		PC per pallet
					On 1st Cycle	On 3rd Cycle	
KK-SOLAR-220	220	1200	7.3	66	4:15	4:20	20
KK-SOLAR-240	240	1200	7.3	68	4:40	4:45	20
KK-SOLAR-260	250	1200	7.3	70	5:00	5:10	20

Reliable Energy | Long Backup | Built for Tough Conditions
